RCL Sponsors Facial Filler Information Day

(Oak Brook) Renaissance Cosmetic Laser and Aesthetic Surgery (RCL) is holding an Artefill® Information Day to educate the public about the myriad benefits of the world's longest latest dermal filler. It will be from 11 am – 7 pm Aug. 31, 2011 at 17W240 22nd St., Suite 201, Oakbrook Terrace, IL.

“Artefill, the FDA-approved dermal filler that lasts for five-seven years, is quickly becoming the filler of choice for men and women in the Chicago area,” said Taek Kim, M.D., RCL medical director. “Facial fillers have long been the temporary choice for people who want to rejuvenate their facial appearance. Artefill is the 21st century answer for those who suffer from “needle fatigue” because of the frequent need for new injections required in the past,” Dr. Kim said.

Carolina Gallentine, national business development specialist for Suneva Medical, which produces Artefill, will present informational programs from 11:30 am – 1 pm and 5:30 – 7 pm. Reservations are required and can be made with Colleen Delehanty, RCL marketing director, at 630-322-9090 or colleen@renaissancecosmeticalaser.com.

“Anyone who wants to receive Artefill must have a five-minute skin allergy test 72 hours before the event to qualify. The test will be given Aug. 31 for \$25.00, which will result in a \$50 credit if you purchase Artefill at the upcoming Sept. 14, 2011 RCL Artefill Day,” Colleen said.

Renaissance Cosmetic Laser is one of only two Artefill Centers of Excellence exclusive providers in Illinois and one of 50 in the country.
