Local Business Coaches Offer Holiday Gift Ideas
Entrepreneur gift list focuses on ingenuity and practicality

Downers Grove, IL (Grassroots Newswire) October 31, 2011 - Local business coaches with The Entrepreneur's Source (TES) in the Downers Grove area have some budget-friendly gift-giving suggestions to help shoppers "seal the deal" for the small or independent business owners on their holiday gift lists this season.

"Entrepreneurs are a unique group of people," said Chief Operating Officer and President of TES Brian Miller. "It takes a special blend of self-confidence, drive and creative decision-making abilities to pursue franchise or small business ownership as a career option. These characteristics also help entrepreneurs appreciate the ingenuity of others. The gifts on this year's list are 'ideas made real' - and that's something that any entrepreneur will appreciate."

* Stapler with Time Stamp

Sometimes the simplest ideas are the best. This "why didn't I think of that?" device allows the user to set the current day's date with simple roller dials built into the stapler, then staple and date-stamp the day's paperwork and mail with a single motion. Efficient and effective!

* Pivoting Power Strip

The six adjustable outlets and six feet of cord on this power strip make it a natural choice for managing the giant adapters attached to today's must-have gadgets. The outlets on this power strip pivot to make room for multiple bulky adapters at the same time.

* Solar cell phone charger

Aptly named "The Ray," this device turns sunlight into power for cell phones. The clever twist for this solar charger is its powerful suction cup that can literally "stick" the device right where it can take fullest advantage of any available sunlight - on a window! Users can also position the device on a tilting kickstand that serves double duty as a storage spot for the USB cords that make charging a cell phone easy.

* Security Webcam

Small business owners can realize big savings when they can effectively and economically monitor their cash registers, storage rooms, warehouses or front desks from a desktop or laptop computer or even a smart phone - from anywhere they have an internet connection. Logitech's Alert PoE (Power over Ethernet) high-definition video and audio cameras are available for indoor and outdoor applications.

* Computer Mouse?

Well, maybe not a "mouse." How about a Chili Pepper, Doggy, Lady Bug, Strawberry or even a red velvet Heart? These fully-functional accessories combine whimsy with practicality - and perhaps a bow to the entrepreneur's personality, too.

* Aim For Success

This introductory business education program is for aspiring entrepreneurs considering business ownership. AIM introduces the E-Myth® entrepreneurial perspective as well as the E-Source franchise education and coaching methodology.

"It can be a challenge to select an affordable gift that will appeal to both the personal and business sides of the entrepreneurs on your list," said Miller. "But, if you choose gifts that serve an everyday purpose, are convenient to use and clever in their design, your gift will be a reminder of your thoughtfulness all year long - at any price point."

The following local business coaches with TES offer guidance and training about franchise and business opportunities. Areas of expertise include finding a new business, financial management, leadership communications, sales management, market and business planning, exiting a business, increasing profitability and expanding operations.
